Captain Ramsay, will be destatched as above TO MORROW, the 22nd inst. For Freight or Passage, apply to BUTTERFIELD & SWIRE,

Hongkong, 21st May, 1896. BLLY & WALSH, LIMITED.

SOLE AGENTS throughout China, Japan, and the Philippine Islands for THE YOST TYPE

WRITER.

The YOST combines the greatest simplicity with the maximum of efficiency. It is the easiest machine to operate, and the one which does the most useful work. It is unequalled for strength and durability, and, being made entirely of the best metals, no wood being used in its construction, it will stand more wear and tear than any other writing machine. It is thus the most economical to maintain, for no only are repairs infrequent and trifling, when the instrument receives the most ordinary attention; but a considerable saving is effected by the substitution of the YOST INK PAD for the expensive and troublesome ribbon of earlier machines.

PRICE -3200 NETT CASH.

"in municipal affairs. So far as the Straits. "Association implies that there is such an-"The general public does not care two peace-"about such matters." Notwithstanding our contemporary's local knowledge we: venture to think he is mistaken in his estimate of the feelings of the Singapore community, for we cannot conceive of any body of intelligent Englishmen being tration under which they live. When they have no power to carry their ideas into effect people may not give close attention to questions of detail; but that is not because they "do not care twopence about such "matters," but bocause of the uselessness of troubling themselves about things they cannot help. If there really be the indifference alleged by the Straits Times it is a very unhealthy sign and in the interests of good government and the general prosperity every effort ought to be made to remove it and to stimulate a healthy interest in public questions. But it does not really appear that much stimulus is necessary, for our contemporary admits that "the "more rational, the more moderate, public "opinion," though not against the Government, is, unhappily, setting against the present Governor. It should follow from this, though our contemporary does not seem to see it, that the public really does take some interest in municipal questions. sufficient at least to make it resent the Governor's ill-advised interference. "The " recent friction between the Governor and abusing them. The Straits Times finds another both Houses be appointed to examine the whole know of the stringent measures adopted by fungi is mice, rabbits and guines pigs in which answer, namely, that "the average proba- situation.

" bility of having an indisorest Governor is " not greater than the average probability of " having an inefficient Municipal Board. "You must balance the one against the other." We hope our contemporary will

derive some amusement from the occupation of balancing. It will be noted, however, that as regards the more important of the powers now exercised by the Governor with regard to the Municipality, the Straits Settlements Association does not ask for their total abrogation, but only that they should be exercised through the Legislative Council instead of by the Governor individually.

The King of Siam left Bangkok on the 9th May on his trip to Java.

Telegraphic communication with Manila was restored yesterday morning.

There were eleven eases of plague yesterday. One only was from the city, three were from the harbour, and seven from Kowleon. The total for the year is now 870.

THE ROBBERY AND MURDER AT WANCHAI.

THE MURDERER BEFORE THE MAGISTRATE. At the Police Court yesterday, before Hon. Commander Hastings, Tong Fung (24), a boiler maker, of San On, was charged with the mur-

P. C. Hoggarth said-On the 2nd inst. people shouting and then saveral Chinamen ran out of Cross Street on to the Wanchai They ran in the direction of Queen's Road. I gave chase and they turned into. Tring Kai Lane and went through into Albany ARET.—Our Clarets, including the lowest was charged with coing in Passers without a priced, are guaranted to be the genuine licence. The defendant powned the fireness Street to Queen's Road. I caught the defendant powned the fireness and it is believed that among them were redent in the Queen's Road, opposite No 3 Police and it is believed that among them were redent in the Queen's Road, opposite No 3 Police I run on and the man in dark clothes was still judgment for the defendants with costs. heard a pistol shot behind me. I turned to ascertain the cause, when I saw defendant shoot the district watchman, who fell backwards on to the footpath. Defendant twened and I ran after him. I was about forty yards behind him when defendant, who was then near No. 3 Police Station, fired a third shot. I did not observe in what direction he fired. Defendant then turned sharp to the left down a narrow lane which is nameless. I fired at the defendant as he was turning into the lane. Apparently my shot took offeet as I gained rapidly on defendant. He entered an empty house on the right. I fired a second shot at him as he was entering the doorway. Defendant went through the house, but did not succeed in getting over the fonce at the back separating it from Albany Street. I did not enter the house. I could see defendant turn at the fence and enter the adjoining house, through which could hear him coming across the loose timber in the house. I went further down and saw him coming out of the doorway into the lane, when I fired my revolver at him for the third time and he dropped and crawled into an adjoining house, where I arrested him. He was wounded in both feet. I found the revolver produced lying at his feet. There are five chambers in it and three cartridges had been discharged, I picked up the bullet which had come under his own personal knowproduced in Queen's Rand, opposite No. Police Station, just where defendant fired his third shot. I took defendant to No. 2 Police Station, where he was charged. I saw P. C. 223 in the Government Civil Hospital,

suffering from a bullet wound in the thigh. might have been in Queen's Road at the time without my seeing him. The coat produced is that worn by defendant when I arrested him. The hole in the left sleers smelt of powder when I arrested him. Atkinson said On the 2nd inst. to the Government Civil Hospital bullet wound in the right thigh. bullet had ovidently entered in the outer part of the thigh, passed behind the hone, emerged at the inner part. The man discharged to-day with the wounds healed up. At 2:15 a.m. on the 3rd inst. the defendant was admitted to the hospital and on

sacred persons to the oppressor. There was Government Civil Hospital. I identified the several others in the good and he was then fully

> Defendant-I did not shoot him. The ease was adjourned until to-day week. The four other men charged with being concerned in the robbery and murder were brought up carlier in the day and remanded until next Thursday. The master of the shop where the robbery occurred has not yet re-

turned to the colony. SUPREME COURT. 20th May.

IN SUMMARY JURISDICTION.

BEFORE MR. T. SERCOMBE SMITH - (ACTING PUISNE JUDGE.)

TSUNG YOUR SHILD. THE HONGKONG FIRE INBURANCE COMPANY. The hearing in this case was resumed. The plaintiff claimed \$417.50 from the defendants as loss sustained by fire at 309, Queen's Road Central, on the 26th February, the having effected a policy of insurance with the defendants. Mr. Reece appeared for the plaintiff and Mr. Hastings (of Mr. V. H. Deacon's office) for

Witnesses for the defence were called and the evidence concluded Mr. Hastings, in addressing his Lordship. said that owing to the evidence of two independent witnesses given at the fire inquiry held before the Magistrate that there was no furniture on the premises at the time of the. fire, and looking to the number of cases of arron and frund consequent thereon prevailing in the colony, his clients considered it to be their duty to themselves, and to the public to fight the case in order that the fallest inquire might be held into the circumstances attending

colony, and that possibly buildent care was not taken in all cases to safeguard the property in the houses from damage or theft. We had heard of goods being roughly treated and thrown over the verandahs, and in any case put out into the middle of the street exposed to the weather and exposed to theft passers by. The plaintiff admitted had heard of such things happening, and counsel suggested there was a strong probability that, knowing of these things, she would take steps to guard her furniture and clothing from such danger and loss. She said

she went out of the house without a change of clothing and that, although she knew of the measures taken by the officials in a case of plague, shedid not think it worth while to remeve a single bit of the furniture or clothing from the house and put it in a place of safety. She said she did not move the things because they were insured, but she did not know whother a policy of insurance covered damage such as counsel suggested. He submitted that the evidence arrangement all cause of quarrel with Manelik for the plaintiff was very contradictory for the defence. The witnesses for defence were independent and no motive could be suggested for their giving false avidence They had stated that on the 25th February, the day before the fire, the only furniture on the verandah was a rattan chair, and the room, as far as the witnesses could see, was empty. Against this there was the statement by the plaintiff that both the verandah and the room were full of furniture. The police evidence for the defence showed that the fire occurred

> His Lordship had to choose between the valueof the evidence given on each side and say Mr. Recco submitted that the question was whether there had been frand or not and the onus of proof lay on the defendants. His Lordship, in giving judgment, said he agreed with the atatoment of the law as laid down by Mr. Hastings and he regretted that he had not the assistance of a jury in the case, as the question was one of fact and the evidence

on the plaintiff's verandah and the fact that the

doors were locked created grave suspicions.

SPORTING INFORMATION. TO THE EDITOR OF THE "DALLS PRESS." Bir, In reply to an inquiry by "New Comer in your paper of yesterday's date, I have re-

specting his questions. I .- Yes; there are proper tigers in China Manchuris, and Korea; also leopards or pantheir are very numerous in some parts of these countries. Considering the very few tigers shot in China as compared to the immensa numbers killed in Indis, the Chinese tiger wil average in length that of the Indian breed The average length of tigers shot in China is about 9 ft in mates and 8 ft. in females; but if the country had been as much explored sportemen as India has; the average would exceed the above lengths. Immensely long tigors are not always proportionately large; they are mostly thin and low animals; the heaviest and most muscular tigers average about 9 ft 6 in. The longest tiger shot in India measured 12 ft. 2 in, and very recently one was killed that measured 12 ft. 0; in this animal was shot by a lady. In China there are several good records one of 10 ft. 6 in and snother of 11 ft. 2 in Natives have captured very large tigers in the interior. have measured tanged skine in Shanghan and found some of them as long as 12 ft. 9 in and they were not "faked" in any way Very large tigers must have reached the age of maturity, which is supposed to be four years.
The Chinese tiger is better marked then its Indian brother, and the skin commands a higher price in the European markets. A full grown Chinese tiger will fotch a price of £100 in some of the large zeological gardens in Europe; the Indian will not fetch a higher price than £70, The Indian tiger, being a jungle animal, gets his hair and skin very much damaged through friction in the jungle, and as a rule is not very well fed. The Chinese breed is a very well fed bay is equal to that of the Indian,

instantaneously and with less provocation.

2.—They are found mostly all over China; chiefly in the provinces of Fuhkien, Kiangsi, Kwantung, and Kwangai, and locally pround Canton, Swatow, Amoy, and Foochow, as is possible, and it is hoped that the initial [N.B.—Occasionally one about the size of a difficulties, which still are chiefly labour supply buffalo visits a place called Tytam in Hong. and opium-smuggling, will be overcome soon. kong; but owing to the bad quality of the water | Prospecting for further alluvial deposits, which he returns again to his own native hills on the mainland.] A gentleman in Amoy has shot 19 not given favourable results, but, since the to his own rifle and has been present at the death of 40; all in the neighbourhood of that the concession, it would be premature to arrive pleasunt city. At a pinch the catchers could be utilized as special despatch boats."

ENQUIRER. Hongkong, 20th May, 1896.

THE STRAILS ASSOCIATION ON MUNICIPAL QUESTIONS. THE GOVERNOR IS REQUESTED TO CUT

DOWN HIS POWERS. The following letter, from the honorary Secretary of the Singapore Branch of the Straits Association, was cent to Governor Sir-Charles Mitchell on the 9th May :-To His Excellency Sir Charles Hugh Bullen

Mitchell, G.C.M.G., Governor of the Straits Settlements. Sir.-I have the honour to inform you that I am instructed by the Committee of the Singapore Branch of the Straits Settlements Association to address you on the subject of the Municipal Bill now before the Legislative

In order to show that my Committee is not unacquainted with municipal matters, I may premise that it is presided over by Mr. Thomas Scott. who was formerly President of the Singapore Municipality, and contains two gentlemen who are at present Commissioners. After a full discussion of the Bill my Committee instructed me to represent to you that, in their opinion, the Bill would be materially improved by amendment in the following respects:

(1.)-That the powers given by sections 56 and 57 to the Governor in Council to compel the Commissioners to remedy what he deems to be a failure in their duty should be vested in the Legislative Council. As the Executive Government necessarily commands a majority in the Legislative Council, your Excellency will see that the object of this suggested amendment is to secure full public debate before the Commissioners are forced to execute a work which they consider nunecessary or harmful.

(2) That the President of the Commispioners should be elected by that body subject to the approval of the Governor) instead of being nominated by the Governor. (3.) That the Governor's right of veto in the matter of salaries should be limited to those

over two hundred dollars a month. (4.) That a clause be inserted in the Bill. defining the circumstances under which the powers of control vested in the Governor should be exercised. My Committee are of opinion that it is calculated to impair the self-reliance of the Commissioners if the Governor may veto a course of action on their part merely because such course of action is one which he himself Cost of prospecting would not have originated or which he thinks General charges at Jelebu inadvisable. My Committee, therefore, suggest | General charges at Singapore, directhat the Bill should set forth that the right of veto should only be used in cases where the Auditor's fees, stationery, printing, Governor has reason to suspect that the Commissioners are acting corruptly or from

The general purport of these suggestions, as your Excellency will see, is to lessen the dependence of a municipality upon the Government of the colony; the contention of my Committee briefly being that, since there is a general tendency everywhere towards increasing the powers and responsibilities of local governing bodies, it seems advisable that, in the Bill now under discussion, effect should be

given to that tendency. As the Bill is now before the Legislative Conneil the Committee think it advisable to supply copies of this letter to the members of of that Council and to the Press.—I have the honour to be, mir, your most obedient servant. Hon. Sec., Straits Settlements Association.

JELUBU MINING AND TRADING CO. LIMITED.

The following is the report of the directors Your directors submit a statement of the Company's accounts for the period from 19th August, 1895, to 18th February, 1896, being the second half of the seventh year of the Company's existence by the Chinese calendar.

The total number of mines at work in Jelebu on February 18th, 1896, was nine against nine. teen at the end of the last half year. The labour force in Jelebu has decreased by 322 men, and is now 717. The amount of ore and tin produced and delivered during the period under report was:-3,929 picula ore against 8,404 picula ore for

the previous half year, and against 4,047 picula ore and 176 plauls tin for the corresponding or last half of 1894. The outstanding advances amounted on 13th February (after deducting \$10,620 written off as bad and doubtful debts) to 819,935. The manager at Jolebu reports these advances to be

After paying all charges, writing off the cost of prospecting, and making the usual allowances for depreciation of houses, plant, and furniture, there remains at the credit of profit and less account the balance of \$1,492.

Out of this balance your directors recommend the sum of \$938 to be placed to the reserve fund to bring the total of the reserve fund to \$10,000. The remaining balance of 8554 is proposed to be carried forward. The Company continues to work the remain-

ing alluvist mines at Jelebu, and will do so as long as circumstances will permit. Nearly \$30,000 bave been spent during the existence of the Company on prospecting for new payable land; and it is considered that any further expenditure in this direction is inadvisable.

The Company continues at Jelebu the work of testing the Rin lode, which has now been proved to a large depth. The twenty-five tons of lode stuff, referred to in last report, have been forwarded to Europe for treatment, and it is hoped that the result will be a favourable one. So far about \$12,000 have been expended on the fercoity of the latter when aroused and put to prespecting of this lode, which sum has been tieen considerably larger but for the fact that has less supply of food and will attack more the proceeds of a quantity of tin won during the

The development of the Maliwun Concession. in Lower Burnah is being pushed on as steadily was carried on during the half year, has so far operations extended only to a small fraction of now at definite conclusions, and arrangements with the least possible expense to the Company. The Company is now also considering the advisability of prospecting and eventually working the various extensive roofs at Maliwan, From the extracts of the manager's letter, which will be found below, it will be seen that

try and describe it. An express rifle is not an The director to retire by rotation is the Hon. express train, although there is a similarity in Dr. Lim Boon Keng, who offers himself for the principles of both. The express rifle is made | restection. The other, Mr. A. J. Gunn, retires J. P. JOAQUIM, Directors.

ABNOT REID. HUTTENBACH BROS. & Co., General Agents. The following is an extract from Mr. Money's latest letter from Maliwan, dated April 10th,

"The work that we ought especially give our the 50 yards sight only. The grooving is a attention to just now, and which is having our slow spiral about one turn in 46 inches, thus re- attention, is the North Hill; if it proves to be ducing the friction and giving sufficient spin to anything like what we expect it to turn out, the bullet to carry it accurately up to all sport- it will be a good thing. Mr. Adam, when he ing distances. Several forms of grooving are reported on this concession, examined the adopted, the best being the oval shaped. The man-faced orab, which swarms in Japan's ipland seas. has a body about an inch long. with a face, says Dr. Shiesof, exactly like that of a Chinese coolie. The strange oresture has two legs, which seem to grow from the top of its head, and two feelers grow from the chin like a forked beard.

THE TRUTH ABOUT THE MA HOMMEDAN REBELLION.

Kansuh, 6th March. The Shanghai newspapers in dealing with the Mahommedan rebellion in Kansuh exceed by a little the gravity of the events. This inclination to pessimism, however, is only to be attributed to the Kansuh officials themselves, who have particular reasons for sending exaggerated reports to Peking in order to get more soldiers; more honours, and principally more money from the Central Government. The chief commander Tung-Fuh-siang is at Hoshow, where the Mahommedans have been dispersed. His principal occupation there seems to be to ransack the poor "hui-hui" (Mahomimedan) and the rumour is going that his trunks are quite full of bullion. He is killing every

day a large number of people.

At Si-ning the war between the Imperial braves and Mahommedans is going merrily on. Though the Chinese troops have been beaten in some particular instances, in general they are victorous. Isolated in a corner and unsupported by their co-religionists of the main part of the province, the rebellious Mahammedans of Si-ning cannot be counted upon for long without the return of fortune at present unlooked for.

Tai-tung-sien, a small and poor town, is still in the power of Mahommedans, but will have to surrender very soon, for the braves are daily increasing in number. The whole countries of Tai-tung-sien, Si-ning, and Ho-chow will be completely ruined after the war. The Chinese as well as the Mahommedans are morciless. The places they take from the Mahommodens are instantly, ransacked by the braves. The country to the north of the hills, Tienshan, is entirely quiet and there is no rebellion in Chinose Turkestan (Sin-kiang), the governor of which province will arrive here after some -days to take charge of Kansuh. His feelings are rather anti-foreign .- China Gazette corre-

RUSSIAN ACTION IN KOKEA.

The alleged fact of Korea having despatched Sei Kinn to Russia with the object of borrow. ing eight millions of dollars from the Russian Government plodging the province of Ham-king with Gensan and Port Lazareff as security, would be another move in the direction of establishing a Russian protectorate over Kerea. This advance has long been regarded as in evitable by those best acquainted with the state of Korea, and far from being hostile to the interests of the other European powers, it is eminently to be desired on behalf of these nations. Events have proved the Korean Government to be unable to secure peace in their restless and turbulent country, and the Japanese have shown neither great power of administration nor tact in their management of Korea. It would therefore bea victory for civilization if Russia, in her endeavour to make Southern Siberia valuable by gaining access to the open waters of the Yellow Sea, could find means of possessing her-self in a peaceful way of Korea. Hitherto the consummation of this object has seemed almost impossible without first going to war with Japan; but by divesting the transaction of all political moment and by giving it a strictly fluencial character, Russia has now provided against any objections which could be raised by foreign powers.

The occupation of Korea would no doubt be a violation of former treaties and promises, but precedents of similar non-observance of treaties are so numerous that in this instance Russia would break no rule either of morality or of ordinary international etiquette. France did the same thing procisely whom she occupied Tunis, thinking herself highly virtuous in doing so, and England does not show any inclination to evacuate Egypt.

The notion that the Russian day in Kores would destroy or even diminish the prospects of foreign trade is opposed to all experience. European occupation develops new wants in populous countries-witness the British trade with Tonkin as an Indo-Chinese state compared with British trade there now that it is a French colony, The new wants in Korea will in the end be supplied by all the industrial countries alike. What will be really dangerous to the prospects of European and American trade is the unavoidable competition of Japan. It has been justly said that a factory in Tokyo will take more wealth out of the hands of foreign manufacturers and merchants than a battery at Gensah or Chemulpo.

Their remains but one argument in favour of resistance to the alleged Russian project. It is that this project would compol the states having interests to defend in the Far East to spend money on strengthening their fleets. This is true enough; but the cost of a war with Russia would be far greater; and had Japan gained s permanent foothold in Koren the fleets of European powers must still have been strength-

It seems to us that the policy of the European states should be clear on Kerean matters. Terms should be made with Russia, and every opportunity given her of opening up Siberia and Kores. It is monstrous to expect Russia, with half a continent on her hands, to put up for ever with no other outlet to the sen than an ice-bound port like Vladivostock. So far from regarding the Russian advance in Kores with calousy, the European powers ought to make the attainment by Russia of that end one of the objects of their own policy.—Chafoo Express.
